Aarav Mehta | Senior AI Engineer | Pune, India

SUMMARY
Python engineer with 9 years of experience; last 3 years building production LLM systems.

EXPERIENCE
Lumora Health (2022 - present), Senior AI Engineer
- Built and shipped a retrieval-augmented clinical notes assistant used daily by 600 doctors.
- Designed the ingestion and chunking pipeline, pgvector store and a hybrid search + reranking layer.
- Built an evaluation harness (golden sets, LLM-as-judge, regression gates in CI) and production monitoring.
- Services in FastAPI, deployed on AWS ECS with Terraform.

Orbit Freight (2016 - 2022), Backend Engineer
- Built Django and FastAPI services for shipment tracking, 3M events/day.
- Owned AWS infrastructure: ECS, RDS, SQS, CloudWatch.

SKILLS
Python, FastAPI, Django, RAG, embeddings, pgvector, reranking, evals, AWS, Terraform, Docker
